# THE STRIKE ENDED.

Miners Agree to Accept Operators' Proposition

FOR RESUMPTION OF WORK

On the Sasis of 65 Cents-The Strike, However, is to be Continued, where Hate is Not Accepted, and a Ten Day Limit Clause to the Lenolutions : roy des for That Contingenc Some Operators will Not Wait, but will Make Preparations to Resume at Once.

COLUMBUS, Q., Sept. 12.-The great coal strike is settled, but it depends upon the operators whether or not the miners resume work within the next ten

If a majority of the firms affected by the suspension announce their willingness to pay the sixty-five cent rate or an equivalent, the miners can go to work immediately Otherwise, the strike will be continued ten days longer, when, regardless of local conditions, the great conflict will be declared off.

The action of the special national con-vention on this point is inspired by a desire to fulfill a pledge made when the strike was declared that there would be no district settlements; that a majority of the operators would have to signify a willingness to pay the rates before a suggestion to settle could be entertained. The ten-day limit is inserted to al-

sugrestion to settle could be entertained. The ten-day limit is inserted to allow the miners in districts like Illinois and West Virginia, where the sixty-five cent rate has opposition, a reasonable time to-force an acceptance of the price. If, at the end of ten days, no adjustment has been reached in such districts, the men in other fields will not be withheld from their work longer, but will be permitted to go into the pits. If, on the other hand, the operators who desire peace are able to have the rate endorsed by a majority of their number in the five states before the tent days' limit expires, just so soon will the strike be officially declared off. This is the convention's decision upon the operators proposition to settle. It is embodied to the following resolutions which were passed by a vote of 495 to 217:
"Resolved, That we, the miners of Pennsylvania, West Virginia, Ohio, Indiana and Illinois, in convention assembled, do hereby agree to accept the proposition recommended by our national executive committee, Viz.' Sixty-five cents in Pittsburgh district, all places in above named states where a relative

osition recommended by our national executive committee, viz.: Sixty-five cents in Pittsburgh district, all places in above named states where a relative price can be obtained to resume work, and contribute liberally to the miners who do not receive the advance, where the fight must be continued until the bitter end.

the fight must be continued that the filter end "Resolved, That the national officers, executive board and district presidents act as an advisory board for the purpose of providing ways and means for the carrying on of the strike, provided, however, that no district resume work for ten days for the purpose of giving miners in other districts time to confer with their operators and get the price, if possible."

if possible."

There is every reason to believe that the atrike will never be allowed to continue throughout the ten-day limit. The Pittsburgh district, through the "big 13" lake shipping combination, has manimously adopted resolutions, and that section is therefore solid, with the exception of W. P. De Armitt. J. S. Morton, a controlling influence in the Chio district, has obtained an expression.

that section is therefore solid, with the exception of W. P. De Armitt. J. S. Morton, a controlling influence in the Chio district, has obtained an expression from all the operators in this state, and vouches for their acceptance of the rate. Seventy-five per cent, of the Indiana operators are known to be in line. There is strong opposition only in Illimois and West Virginia.

Aside from this the miners in both Pittsburgh and Ohio are likely to force a general estilement by ignoring the ten-day limit and returning to work at once. Telegraphic advices from both fields indicate that they are preparing to do so. A district convenient to take such action will likely be held in Pittsburgh at once, and as soon as a break in one district is made there will be a scramble to get in on the spound floog of the depleted markets, and a general settlement will no doubt result all along the line

# GIRLS ON A LARK.

One a Runaway West Virginian, Another a Variety Astress. NEW YORK, Sept. 12.—Agents of the Gerry Society arraigned in the Yorkville court this morning a girl of 19 years, whose hair was cut short and who was dressed in man's clothing. She describes herself as Lillian E. Back Boyd. She is slender and rather pretty and attractive. She was arrested last night in connection with the disappearance of Isa Howell, daughter of Richard Howell, of Mannington, W. Va. The girl was found in the same flat with Lillian Boyd. She was taken care of by the

About two weeks ago Mr. Howelerote to the Gerry Society that his 13 year-old daughter, Isa, he had reason to believe, was in this city. The agent found the girl last night. The two agents went to the house, having learned that a Mrs. Leo Loyal, a variety actress, was living there with Lillian agents went to the house, having learned that a Mrs. Leo Loyal, a variety actress, was living there with Lillian Boyd and Iss. Mrs. Loyal was not there, but Issa and the girl in man's clothing were. The agents took the latter for a man. She would not dress herself in woman's attire.

Mrs. Loyal was found in the Mizoll Music hall in Newark. She told the agents that Isa had come to her about a year ago of her own free will.

The agents in court this morning asked that Isa be committed to the society's care until her father calls for her. Isa said she had run away from her home because of ill treatment she had received from her step-mother.

Lillian Boyd says she is a "champion train jumper." She says she has jumped many times from fast moving trains for wagers.

### Pensions and Postmasters.

WASHINGTON, Sept. 12 -- Pension certificates have been issued to West Virginia applicants, as follows:

Restoration and increase—William Slater, deceased, Creston, Renewal—Robert A Stogden, Hunting-

ton.
Increase—Henry Sprouls, Loudenville,
Henry Dikeman, Wheeling; Salathle
Dennison, Hillbert; Lewis H. Kling, Gau-ley Ridge; Townsend Beall, Richardson,
Original—Alfred G. Nixon, West

Cortificate has been issued, also, to Wil-liam R. Galbraith, South Burgettstown, Washington county, Pa., for original

ommissions have been issued to West Commissions have been issued to very Virginia posimasters of the fourth class as follows: R. A. McCutcheon, Beling-ton, Barbour county; J. J. McComb, Ona, Cabell county; W. C. Harmon, Pansy, Grant county; Lavina Pifer, White.

Presion county.

L. D. Grove has been commissioned postmaster at Halbrook, Greene county, N. E. Seech, Buffalo, Washington county, Pa.; H. W. Laughton, Lone Pine, Washington county, Pa.

#### The Bank Statement.

NEW YORK—The weekly bank statement shows the following changes: Surplus reserve decreased \$7.445,325; loans plus reserve decreased \$7,445,225; loans, increased \$7,352,690; speeds decreased \$299,700; legal tenders decreased \$7,078,-500; deposits increased \$700,500; circula-tion increased \$256,700. The banks now hold \$26,665,825 in excess of legal re-cultaments.

# NOTICE:

BELDING BROS. & Co., Silk Manufacturers,

Mess, Jas. S. Kirk & Co., GENTLEMEN:- Chicago, Ills.

We have given your "White Cloud" soap a thorough test in washing pieces of linen embroidered with our "New Process" Wash Embroidery Silks and find it entirely satisfactory. We take pleasure in recommending it as a superior article for laundering line embroidery.

Yours trade. Yours truly,

(Signed) BELDING BROS. & Co.

Refering to the above, we deem it important to state that this letter was entirely unsolicited by us. White Cloud Soap now has the highest authority as its endorser as being superior for fine laundry work. For the bath and toilet it also ranks first as a pure white floating soap.

JAS. S. KIRK & CO.,

Established 1839.

Largest soap manufacturers in the world.

#### FINANCE AND TRADE

The Features or the samey and Stock Markets.

NEW YORK, Sept . 11.-Money on call nominally 14@14 per cent. Prime mercantile paper 3%@4½ per cent. Sterling exchange easy with actual business in bankers' bills at \$4 85% @4 86 for de-

ly recovered before the trading day was finished. The week's speculation showed renewed activity in railroad securities while the industrial specialties were less prominent. The manipulation "boosting" of an individual stock, which was a feature all last week, has been absent this week, except on Tuesday, the first trading day, when Northern Pacific preferred was thus employed. The development of new factors of strength in the general situation has done away with the necessity for thia daily bracer or artificial stimulant to the market. One of the most notable developments in the general situation has been the growing interest in Americans on the part of English and continental capital. As the London market is nearly stripped of American securities much of this buying has been in the New York market for foreign account. The supply of Americans in London has in fact become so small that they are easily affected by manipulation and the course of their prices is no longer accepted as a reliable index in New York. That the large sales of American securities by foreigners have been incited by foreign financial authorities and encouraged and alded by large banking and financial interests with a view to their checking gold exports to this country and keeping down the money rate in London is now fully admitted. It is much doubted whether the expedients adopted by the Bank of England to check the outflow of gold by contracting loans and raising the discount rate will be much longer successful. The bank is handleapped by its own desire to keep down the money rate in order to facilitate the success of the Indian government loan. But the evidence of continued heavy bank clearings throughout the United States is that uses are being found in business for the country's surplus reserves of money. This is supplemented by to-day's statement of New York clearing house banks. Thad decrease of \$7,078,000 in the stock of legal tenders indicates that the contraction in the reserve is now due to the demand for currency from the interi finished. The week's speculation show-ed renewed activity in railroad securi-ties while the industrial specialties were

Chicago.

Soap Manufacturers.

factor, as were the good prospects re-ported in the trade reviews.

The yellow fever had a somewhat de-pressing influence on southern railways.

The yellow fever had a somewhat depressing influence on southern railways. Louisville declined 2½ during the week. The grangers led the advance with St. Paul, Rock Island and Omaha most conspicuous. Gains of 1 to 2 points are shown by many stocks. Consolidated Gas is up 18 points and Brocklyn Union Gas 13½. The coalers, Missouri Pacific and Wabash show losses.

The Atchison issues were the most active in the bond market. Activity and strength was also shown by the Northern Pacific bonds. Fort Worth and Denyer city firsts, Union Pacific, Denver & Gulf firsts, Colorado Midland T. R., Erie general 3; Kansas Pacific consols, Fort Worth & Rio Grande firsts and New York S. and W. general mortgage. The income bonds of the Central of Georgia railway showed sharp advances on speculative buying. Government bonds are ½ to % higher. Total bond sales \$17,628,100.

The Financial says:

The full effect of the currency shipments to the interior are shown in the statement of the associated banks of

The full effect of the currency shipments to the interior are shown in the statement of the associated banks of New York City for the week ending September 11. The loan increase amounts to \$7.347.700, and the loss in reserve to \$7.445.25, while deposits expended only \$399.500, showing that the money obtained by loans does not constitute a bank credit in the form of a deposit as usual. In other words, if the statement is to be relied on, the funds have gone to the interior to move the crops. In New York the commercial paper market has been quite active and stock exchange requirements have made a continuous demand for call money.

At this time last year call money began to go up as the banks withdrew

At this time last year call money began to go up as the banks withdrew from the loan market, but there does not seem to be the slightest probability that the supply will not be sufficient for all demands until the end of the year.

As the flow of money to the west has not yet ceased, the chances are that the New York banks within the next few weeks will report over half their reserve in gold.

The government is rapidly approach-

The government is rapidly approach

ing the same condition, owing to reve-nue deficiency and increasing gold supply. It is worth nothing, however, that the note circulation of the New York banks is increasing for the first time

Specie may be forced into actual cir-

BONDS AND STOCK QUOTATIONS. 

Breadstuffs and Provisions CHICAGO—Everything traded in or he board of trade to-day was weak with the exception of oats and heavy leclines resulted. Statistical news it wheat favored the bears for once and hey took advantage of that fact with a vengeance, pounding the price down to a point 1% below yesterday's close Corn decline 1% for the same reason Corn decline 1½c for the same reason. Oats declined ½c. Provisions suffered from another large dose of yellow fever scare, pork declining 20c, lard 30c and ribs 12½c. No matter what the complexion of a government crop may be the wheat market is almost invariably weak after 1½ amouncement. To-day's market was no exception.

Wheat started at a decline of ½6%c, and with the exception of two or three short spasms of strength the market was decidedly off color all day. The decline was more influenced by what

was decidedly off color all day. The decilne was more influenced by what was learned yesterday of the growing weakness of the most desirable shipping grade of whiter wheat, the No. 2 Kansas hard, and a decline of from %d to 1d at Liverpool then by the government estimate of the crop.

The government estimate, 484,000,000, was rather small in itself, but the trade generally believed in a yield 100,000,000 bushels larger than that. The week's clearances from both coats were equal

generally believed in a yield 100,000,000 bushels larger than that. The week's clearances from both coats were equal in wheat and flour to 5.461,506 bushels, against 6,265,000 bushels the corresponding week of 1896. Chicago received today 255 cars, against 184 a year ago, Only twenty cars of to-day's receipts were contract, compared with seven carloads of the regular grade in the day's receipts a year ago. Minneapolls and Duuth got 759 cars against 459 Saturday last, and 1,165 cars a year ago. Temporary firmness was given to the market at about the price trading commenced at when the export clearances began to be made known, and it was found that the shipments of wheat from Philadelphia were 105,000 bushels, and from New Orleans 125,000 bushels, Following that temporary encouragement the first reasons for weakness returned with redoubled strength and a much more material break took place.

The total clearances of wheat and

declaring an extra dividend of 1. Der cent., bringing the year's distribution up to 5 per cent. This carried both St. Paul and Burlington more than 1 per cent, above par, led to renewed buying of the grangers and strengthened the whole railroad list. The decision to pay 3 per cent, on the adjustment bonds of the Atchison company was also a the Atchison company was also a strengthening factor. The encuraous strength and a much more material break took place. The total clearances of wheat and flour from Atlantic ports for the day amounted to the liberal total of \$90,000 bushels, and from New Orleans \$22,000 bushels, following that temporary encouragement the first reasons for weakness returned with redoubled strength and a much more material break took place. The total clearances of wheat and flour from Atlantic ports for the day amounted to the liberal total of \$90,000 bushels, and from New Orleans \$22,000 bushels, following that temporary encouragement the first reasons for weakness returned with redoubled strength and a much more doubled strength and a m

which time the general crowd had gained the courage of their convictions and no longer feared to sell the wheat they considered much too high. They battered the price of December down to 35½c, even to 35½c for some of it, but some buying of that sort caused a recovery to 96½c at the close.

Corn was radically weak, made so by the government crop report, heavy receipts and a rather poor shipping demand. There was heavy commission house selling throughout the session and during the later weaknesses of wheat liquidation was general. The market was at its lowest when recession was ending. The government report indicated a crop of 1.850, cars. Weekly clearances were heavy, 4,963,000 bushels. Receipts were 1.880, cars. Weekly clearances were heavy, 4,963,000 bushels bulls had in mind a large visible increase Monday and refused to be comforted. Liverpool was \$614 lower. December open \$4.56 kg/sc lower at \$24,632% cand declined to \$1% c where it closed.

Taking into consideration the weak-

where it closed.

Taking into consideration the weakness in corn and wheat, oats were comparatively steady, although prices at the close were from 4.6% lower. The cash demand was excellent and held up the market surprisingly well against the influences which usually are so

the market surprisingly well against the influences which usually are so strong.

Receipts were 385 cars. December ranged from 21½c to 20½c, closing at 21c asked.

The yellow fever scare struck the provision market with renewed violence. Everyone in the pit appeared to have products to sell and the pressure increased as the grain markets tumbled. Huge quantities of lard and provisions were dumped on the market. Stop loss orders were numerous. A great deal of stuff was liquidated by New York, and the selling at times took on the appearance of an organized raid. The Cudahys did the best buying, covering shorts. At the close July pork was 20 cents lower at \$4.45, and December ribs 12½ cents lower at \$4.45, and December ribs 12½ cents lower, at \$4.77½.

Estimated receipts Monday:
Wheat, 450 cars; corn. .500 cars; oats, 440 cars; hogs, 25,000 head.

#### Live Stock

Live Stock

CHICAGO—The cattle market was even duller than usual for a Saturday. Receipts were very small and quotations were almost entirely nominal. The few scales made were at yesterday's prices. Large cattle receipts are expected for the remainder of the month, and good fat beeves are pretty sure to sell satisfactorily right along, but natives coming into competition with rangers are likely to be discriminated against. Trade in hogs was not particularly active, and prices were weak to Scilower. Sales were made of heavy packing hogs at \$3.75@3.95 and cholce heavy brought \$4.15@4.25, while prime assorted light sold at \$4.35 and choice mixed \$4.30. The greater part of the hogs crossed the scales at \$4.05@4.25, lots of little pigs selling for \$2.50@3.00. The yellow fever scare has effected the provision market unfavorably and hogs have sympathized. Sales of sheep and lambs were at unchanged prices, native provision market unfavorably and hogs have sympathized. Sales of sheep and lambs were at unchanged prices, native sheep being steady at \$2.5004.25 and western range flocks at \$3.4003.85. Lambs were salable at \$3.2503.75 for cuits, up to \$5.5005.75 for choice. Eastern buyers take all the western ewes at \$3.5003.60 they can get hold of. Receipts—Cattle 200 head; hogs 11,000 head.

CINCINNATI—Hogs active at \$3 50@ 4 45. Cattle steady at \$2 25@5 25. Sheep strong at \$2 25@3 75. Lambs strong at \$3 75@5 50.

#### Wool.

LONDON-There were small trans-actions in the wool trade during the week. Stocks are gradually diminish week. Stocks are gradually diminishing. There were no special features. Home manufacturing reports are good. The arrivals to date for the fifty series which open on the 28th inst., are as follows: New South Wales 19,235; Queensland 24,955; Victoria 22,679; South Australia 2,709; West Australia 567; Tasmania 948; New Zealand, Cape of Good Hope and Natal 34,055; total 151,440 bales, including 41,000 bales forwarded direct. The imports for the week aggregated 11,714 bales, including 638 from New South Wales; 508 from Melbourne: 159 from South Australia; 1,662 from Cape from South Australia; 1,562 from Cape of Good Hope and Natal; 404 from France; 7,645 from Busserah; 283 from China; 178 from New York and 187 bales sundries. A sale of low wools will be held next Tuesday and Wednesday.

NEW YORK—Wool strong; fleece 20@ 27c; pulled No. 2 to extra 27@40c; Texas 10@18c.

NEW YORK-The dry goods market hows fair results for the week in near-y all grades, notwithstanding the fact ly all grades, notwithstanding the fact that buying has, to all appearances, been much slower than a short time ago. The aggregate of the week would under ordinary circumstances, be very satisfactory. Jobbers have had a thoroughly satisfactory week, which, at its close, shows no diminution of interest. Staple cottons are firm and steady in nearly all grades. Prints are strong and in active demand. The market for ginghams and napped fabrics is strong and, considering recent advances in the former is active. In the former is active.

### Metals.

NEW YORK-Pig tron-Quiet; south-ern \$9.75@10.50; northern \$10.00@12.00. Copper-Fair demand; brokers 11½c. Lead-Strong; brokers \$4.00. Tin plates-Barely steady.

Petrolenm. OIL CITY—Credit balances 69c; certicates, no bids; one sale at 69½c.
